Note:

- ***Diagrams are not to scale and are as viewed from outside***
- ***Doors come pre-drilled with a 2 1/8" bore for both the lockset and the deadbolt, 2 3/4" backset, and 5 1/2" between lockset and deadbolt unless otherwise specified***
- ***Inactive door slabs are not bored for lock set or deadbolt unless otherwise specified.***
- ***When ordering multiple products with a keyed lock, it will be the customer's responsibility to key individual locks alike.***
- ***When ordering specialty window, door, or patio door hardware, be aware that colors may vary from piece to piece and between products with oil rubbed bronze having the most extreme differences. Speak to your sales representative for details.***
- ***For Energy Efficiency Performance, NAFS Performance Grade, and Water Resistance values on Multi-litec configurations, the values given are for the poorest performing lite type in the configuration. Highest U-value, Lowest ER value, Lowest Performance Grade,and the Lowest Water Resistance.***
- ***Builder to verify energy requirements before placing order***
